

### Vantage™ Investment Strategy Hypothetical Annual Performance

Hypothetical annual performance for each of the 9 Vantage asset allocation models (Ultra Growth, Aggressive Growth, Growth, Balanced Growth, Balanced, Balanced Income, Income, Risk Averse, and Stable Real Value) versus Cash and the Vanguard 500 stock index mutual fund (VFINX). Results are net of fund expenses and assume the use of our recommended securities, rebalanced annually. The performance of the Vanguard 500 Index fund is provided for reference purposes only and is based on information published by Vanguard. This information is provided for educational purposes only. Past investment performance does not guarantee future results. No warranty is expressed or implied. Actual results may and do typically vary.
